

"My name is Andrea Loizidou, and I am a student-athlete graduating this summer from Florida International University in Miami, Florida. I will be receiving my degree in Mathematics with minors in Computer Science and Statistics. Currently, I am preparing to return to the United States to pursue a Master's degree in Data Science, with a specialization in Artificial Intelligence. As a mid-distance runner, I find joy in outdoor activities, such as hiking, which I make sure to do weekly. In my free time, I have developed a passion for baking, particularly experimenting with healthier ingredients. I also love traveling and capturing nature's beauty through photography."

"My name is Andreas Koulermou and I am an undergraduate student of Psychology in the University of Cyprus. As a future scientist, I am passionate about mental health services provision, social and clinical populations and research. Specifically, I aspire to combine all the above as a clinical psychologist with active research campaigns. Throughout my academic and vocational journey so far, I have experience with data collection and social work. My Internship at CAN - Neurocognitive Research Lab is definitely an opportunity to gain experience in data analysis and, among other things, examine neurocognitive factors that contribute to the development of dementia in the elderly population of Cyprus."

"My name is Andriani Rokomou, I'm 20 years old and I'm a fourth-year undergraduate psychology student at the University of Cyprus. During the summer internship program of the centre for applied neuroscience, I would love to gain experience as a research assistant in any topic associated with neurodevelopmental diseases and learning disabilities. I possess strong interpersonal skills even with children and adolescents that will be helpful in any project of the LD group. I'm looking forward to work with other researchers and scientists in this area and improve my general knowledge of psychological research."

“Androula Fouskotou : Είμαι τριτοετής φοιτήτρια στο Τμήμα Ψυχολογίας του Πανεπιστημίου Κύπρου και ολοκληρώνω το δεύτερο μου πτυχίο στον τομέα αυτό, την επερχόμενη χρονιά. Στόχος μου μέσω της συμμετοχής μου στο ερευνητικό κέντρο Εφαρμοσμένη Νευροεπιστήμης είναι να συμμετέχω ενεργά σε ερευνητικό πρόγραμμα όπου θα αναπτύξω τις ερευνητικές μου δεξιότητες, να μάθω τα στάδια μίας έρευνας και την κοινωνική επίδραση και αλλαγή που μπορεί να επιφέρει μία έρευνα κοινωνικών επιστημών στην κοινότητα του νησιού. Μέσω αυτής της εμπειρίας, θα ήθελα να δοκιμάσω και να εξελιχθώ, έτσι ώστε να συνεχίσω τις σπουδές μου σε θέματα που αφορούν διεπιστημονικούς συνδυασμούς που αφορούν την Νευροεπιστήμη με τις τέχνες και άλλους τομείς της Ψυχολογίας όπως την Κλινική και Κοινωνική Ψυχολογία. “

“Ονομάζομαι Τέλλος Φάττα και είμαι είκοσι δύο (22) ετών. Είμαι προπτυχιακός φοιτητής ψυχολογίας στο Πανεπιστήμιο Κύπρου. Ανέκαθεν, ο ανθρώπινος τρόπος σκέψης και η ανθρώπινη συμπεριφορά αποτελούσαν θέλγητρο για εμένα. Αφού ολοκληρώσω το πτυχίο μου, θα ήθελα να ασχοληθώ με ένα επάγγελμα που να συνδέει την ψυχολογία με την βιολογία. Χαίρομαι ιδιαίτερα που μου δίνεται η ευκαιρία να εργαστώ στο CAN, καθώς είναι ένας χώρος που αφενός σχετίζεται με τον τομέα που θέλω να ασχοληθώ και αφετέρου θα με βοηθήσει να αποκτήσω γνώσεις και εμπειρία, έτσι ώστε να είμαι περισσότερο έτοιμος για την μετ' έπειτα σταδιοδρομία μου (μάστερ, διδακτορικό κλπ.).”

“My name is Christoforos Sialou, and I am an undergraduate psychology student with a strong interest in research and cognitive psychology. I thrive in collaborative environments and consider myself to be sociable and highly organized. The opportunity to learn from this internship is something I am incredibly eager about. Exploring the intricacies of the human mind has always fascinated me, and I am committed to expanding my knowledge in this field. With a strong dedication to learning and a curious nature, I am excited to contribute to the team and make a meaningful impact through my work.:

“Hello. I am Dilara, and I’m a third-year psychology undergraduate currently studying at Middle East Technical University. Through my studies thus far, I have grown to especially love neuropsychology out of all psychology sub-disciplines. My interest in research lies in areas concerning brain injuries, and the working of the nervous system. I applied to CAN to get a taste of experiencing the reality of such research and immerse myself in the reality of applied neuroscience. After my further studies, my career goal is to become a researcher and this internship is my first step in pursuing my dreams.”

“Ονομάζομαι Ιάσμη και είμαι φοιτήτρια ψυχολογίας στο 4ο έτος, στο Πανεπιστήμιο Κύπρου. Με ενδιαφέρει η νευροψυχολογική έρευνα. Πέρυσι συμμετείχα στο πρόγραμμα Erasmus και φοίτησα στο πανεπιστήμιο KU Leuven στο Βέλγιο για ένα εξάμηνο, όπου παρακολούθησα μαθήματα που με έκαναν να ενδιαφερθώ παραπάνω στον τομέα της νευροεπιστήμης. Κάνω την διπλωματική μου εργασία πάνω στο κομμάτι της μειωμένης αυτογνωσίας μετά από μία Κρανιοεγκεφαλική Κάκωση και της επιρροή της στην επιστροφή του ατόμου στην παραγωγικότητα. Θέλω να κάνω τις μεταπτυχιακές μου σπουδές πάνω στην νευροεπιστήμη, καθώς θα ήθελα να ασχοληθώ με το κομμάτι της έρευνας και επαγγελματικά.”

“My name is Joanna Procopiou, I am a postgraduate psychology student at University of Nicosia. I’m in the process completing my Master’s degree in Educational/School Psychology. I am currently working as an intern at Centre for Applied Neuroscience in order to gain some research experience specifically in the Language and Cognitive Development lab under the supervision of Dr. George Spanoudis in collaboration with Dr. Kyriakos Antoniou. My research interests include the neurodevelopmental disorders and specific learning disorders I am grateful to be part of CAN team and I’m looking forward to this unique experience and support the contribution in the area of neuroscience. “

“My name is Revekka. As a motivated, detail-oriented and always eager to learn undergraduate Psychology student, I am dedicated to building a strong academic foundation, striving towards a Clinical Psychology doctorate. Communication, teamwork, and interpersonal skills are some of the aptitudes that facilitated my academic journey, while effective organization and time-management enabled me to thrive under pressure. My research experience encompasses public speaking anxiety, unaccompanied minors and eating disorders projects and presentations and/ or participations in CAN, NEO-PRISM-C and the upcoming ACBS conference. The spectrum of my main research interests focuses on depressive and anxiety disorders, phobias, pathological gambling, OCD, and borderline personality disorder.”

“My name is Stephanos Alexandros Kontogouris, and I was born in Athens, Greece. In 2012, I moved to Cyprus and completed my high school education. After graduating, I pursued a Bachelor's degree in Psychology and a Master's degree in Cognitive Neuroscience and Human Neuroimaging at the University of Sheffield in the UK. However, due to mandatory military service in Greece and complications arising from the pandemic, my journey was temporarily halted. Determined to pursue my research interests, I relocated to the UK, where I am currently residing, in search of a PhD opportunity. Outside of academia, I find joy in activities like mixed martial arts, hiking, camping, and diving into books. My research interests encompass diverse areas, including neuroplasticity, neuropharmacology, memory, consciousness, and perception.”
